

Creator Studio Equipment Manual

Before recording

1. Reserve the correct studio pod and arrive early.
2. Check battery, storage, microphone, and lighting.
3. Record a ten-second test and listen for background noise.
4. Keep cables taped down and leave the setup safer than you found it.
5. Export a backup before clearing any device.

Practice challenge

Record a 30-second introduction with one clear idea and a strong closing.

NIVOX tip: ask the studio team before changing unfamiliar equipment settings.
