FREQUENTLY ASKED QUESTIONS

Start with the problem this discipline solves, not a scientific program or model, define the audience, delineate what project needs, and

ASSIGNMENT AND MILAP PROJECT TOOLS

Save an original source file and an exported copy. Record the file type, size, dimensions, and the reason you chose each setting.

Lesson 3: REPEATABLE PROCESS: less time, a smaller screen, a different audience, or a stricter file size.

BEST PRACTICES Consider and produce three rough options before selecting one. Compare them against the brief, not personal preference.

LESSON 4 STEP-BY-STEP PRACTICE " Explain decisions, not just outputs.

COMMON MISTAKES

Stripping away the brief, deep, focused 8-plex with all the details and only reporting testing, reporting the wrong format; and presenting
