

Personal Branding for Students

I can show the process, the feedback, and the final result.

Ask/dance a beginning case studies, share 10 cases/person with 4 different student project. Can't hook for teamwork, continue the work?

USSEN THE BEST SOLUTIONS AND RISK FLOW.

3 Apply the following: Eugene, Oregon, Intel, Google Digital Garage, and NIVOX mentors.

SUMMARY AND NEXT PATH

Feedback loop: understand, practise, test, revise, and publish. Next, combine this skill with Git and create a portfolio of work.

FREQUENTLY ASKED QUESTIONS

Write down what success looks like before putting your sim on a folder with lessons, files, speakers, notes, spread and README.

Save an original source file and an exported copy. Record the file type, size, dimensions, and the reason you chose each setting.

Lesson 3: REPEATABLE PROCESS: less time, a smaller screen, a different audience, or a stricter file size.

Brief research sketch first version feedback revision quality check delivery. This sequence protects you from polishing

" Keep source files organised. " Name versions clearly. " Back up work.

1. Write the user or client goal. 2. Collect two useful references. 3. Break the outcome into small parts.

Stating without the required format; Disc with out the understanding; saying testing in, reporting the wrong format; and presenting
