

Startup Pitch Deck Toolkit

The ten-slide story

1. Problem: who is struggling and why?
2. Solution: what changes for that person?
3. Evidence: what have you tested?
4. Market: who needs this and how will you reach them?
5. Business model: how can the project sustain itself?
6. Team and next step: why now, and what support do you need?

Practice challenge

Explain your idea in one sentence, then test that sentence with a student.

NIVOX tip: clarity beats crowded slides. One idea per slide.
